PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 2.7 years of experience building responsive web applications using the MEAN stack (MongoDB, Express.js, Angular, Node.js). Key contributor to Jinzcart e-commerce platform, developing modules for product management, role-based access control, invoicing, and reporting. Proficient in RESTful APIs, Agile development, and creating efficient, user-centric solutions, with a strong focus on clean code and performance optimization.

TECHNICAL SKILLS

Frontend: Angular, TypeScript, HTML5, CSS3, JavaScript, Bootstrap, NGXS (State Management), RxJS, Responsive Design

Backend: Node.js, Express.js, Nodemon, RESTful APIs, Email Integration (Nodemailer), API Integration

Database: MongoDB, Mongoose, CRUD Operations

Tools & Platforms: Git, GitHub, Jira, VS Code, Postman, npm

Core Skills: Problem Solving, Agile/Scrum, Code Review, Team Collaboration, Full Stack Development

PROFESSIONAL EXPERIENCE

JINSoftz Technology Private Limited

Chennai, Tamil Nadu, India

February 2024 – Present

Software Engineer L2 (Promoted January 2025)

- Contributed to Jinzcart e-commerce platform, developing product management, user roles, invoicing, and reporting modules
- Built responsive web applications using Angular, Node.js, Express.js, and MongoDB with focus on scalability
- Integrated frontend and backend through RESTful APIs, ensuring efficient data flow between components
- Implemented NGXS state management for complex application data flows across multiple modules
- Developed email notification systems using Nodemailer for order confirmations and automated communications
- Collaborated with QA and project teams in Agile environment, participating in sprint planning and code reviews

Software Engineer L1

May 2024 – December 2024

- Developed reusable Angular components and modules for consistent UI implementation across applications
- Implemented responsive web interfaces using Angular, TypeScript, HTML5, CSS3, and Bootstrap
- Created and tested RESTful APIs using Express.js and Node.js for business requirements
- Worked on MongoDB database operations including CRUD operations and data management

Software Trainee

February 2024 – May 2024

- Completed comprehensive training in MEAN stack development covering Angular, Node.js, Express.js, and MongoDB
- Built practice applications learning end-to-end development workflow and industry best practices

ACADEMIC PROJECTS

Online Vehicle Repair System | HTML, CSS, JavaScript, Bootstrap

Final Year Project

- Developed web platform for booking vehicle repairs and tracking service status with responsive design

Plasma Donor Web Application | HTML, CSS, JavaScript

IBM Project

- Created application connecting plasma donors with patients during health emergencies

Passport Automation System | PHP, HTML, CSS, Bootstrap

Mini Project

- Built online system to streamline passport applications and status tracking with automated workflows

EDUCATION

Anna University (University College of Engineering - Nagercoil)

Bachelor of Technology in Information Technology | CGPA: 7.9/10

August 2019 – June 2023

CERTIFICATIONS & ACHIEVEMENTS

- IBM Guided Project Completion: Successfully completed project-based learning in software development
- Experiential Project-Based Learning: Hands-on experience building real-world applications
- Team2Solve & Code2Build: Participated in collaborative coding challenges and team problem-solving
- HTML5 and CSS3 Specialist: Advanced proficiency in modern web standards and responsive design
- Guinness World Record Event: Contributed to large-scale technology initiative
